Some Testimonials:

“We find that the DVD is truly a work of art. That old saying that a picture is worth a thousand words is so true regarding the presentation of openness on the DVD. It is a state-of-the-art work and gives a feeling for openness as well as an intellectual understanding of it.”

Beryl Mercer & Ken Plotnik, Approved Adoption Practitioners & P.R.I.D.E trainers

“I use the DVD in PRIDE Training and with clients who have not attended my training. People really like to see the many different perspectives that are presented, and watching the DVD definitely helps them to feel more comfortable with open adoption and to see the life-long benefits for all those touched by adoption.”

Donna Durant, Approved Adoption Practitioner & P.R.I.D.E trainer
